Identify and Control Printing Costs

It's time to take control of your print environment.

COMMON CENTS

Our Solution Helps Uncover the Unknown Costs of Printing

Managing and maintaining your imaging fleet can be costly, frustrating, and time consuming. This doesn't have to be your problem anymore. Free yourself from printing devices with our Managed Print Solutions.

With a simple secure download, we can collect real data from your printing devices and uncover ways to manage and optimize your print technology from an easy to user web interface. Partner with us to develop a more efficient and productive print management strategy.

Powerful Information about Your Printing Environment

Our MPS solution collects critical information from your networked printers, copiers, MFP's and fax machines such as:

- Current status
- Serial and asset numbers
- Historical trending reports
- Supplies' levels
- Printer locations
- Utilization
- Page counts
- Cost-per-Page tracking
- Model descriptions
- Automated service alerts

Secure and Reliable Technology

Our MPS solution is installed on a single workstation at your location in under 5 minutes. The software runs as a Windows service in the background, collecting and transmitting critical imaging metrics to our secure web server. From then on, your printer information will be available 24 hours a day, 7 days a week via a secure website.

No personal or user data is collected with the software; only the core metrics needed to maintain and manage your printing assets are gathered.

Commonwealth Technology can provide you with powerful business intelligence to help take control of your print environment.

Our managed print service collects powerful information and allows us to provide the ultimate solution for managing and maintaining your printing environment. Partner with us to collaborate on a print management plan of action that works for you!
